ITINERARY

DAY 01

Pickup and drive in

Early pickup and the drive to Chimborazo across the Avenue of the Volcanoes.

Check-in and trailhead (4,700 m)

Park registration and drive up to the trailhead parking lot at 4,700 m. Bring your signed waiver printed.

High camp (5,300 m)

Climb to high camp with four-season tents, technical briefing and crampon fitting.

Dinner and rest

Dinner, hot drinks and rest before the summit push.

DAY 02

Summit push (01:00)

We rope up and climb the glacier by headlamp.

6,000 m at dawn

We reach 6,000 m as first light breaks over the Andes.

Summit, 6,263 m

Summit cutoff at 08:00 and high-altitude photography on the roof of Ecuador.

Descent and return

Back down to high camp, regroup at the parking lot, lunch, gratitude circle and return drive.

INCLUDED

- Certified mountain guides (2 climbers per guide)
- Private transport with pickup included
- High camp with four-season tents
- Permits and hot hydration
- High-altitude photography
- Training sessions

NOT INCLUDED

- Technical equipment (ice axe, crampons, harness, helmet, boots), available for rent with PEAKS
- Personal clothing (three-layer system)
- Meals beyond those listed
- Activities not listed in the itinerary

REQUIREMENTS

Prior experience with crampons and ice axe, good aerobic fitness and solid acclimatization (ideally 2 to 3 days on lower peaks such as the Illinizas or Carihuairazo). Attending the technical briefing and the training sessions is mandatory.
